

Allowable revenue = Tax levy + State property tax relief, subject to revenue limit

Valuation Factor

Revenue Limit

Last year Granite Ridge Technical College had a total **allowable revenue** of \$16,129,961

The Department of Revenue (DOR) determined that the percentage change in the district's equalized value resulting from total new construction minus any improvements removed creates a **valuation factor** of 0.9% for the district.

The district experienced fairly slow growth this past year in new housing.

This DOR determined **valuation factor** allowed for a total revenue growth of 0.9% which produced a new revenue limit.

\$16,129,961	X	0.9%	=	\$145,170

Statutory Formula Aid (General Aid)

Your college received Statutory Formula Aid. The majority of the general aid is distributed using a formula through which districts with less property valuation behind each student receive higher percentage of aidable cost because they are less able to generate as much property tax revenue at a given mill rate than districts with high property valuations.

Formula Factors:

- Aidable Costs
- Full-Time Equivalent (FTE) Students
- Equalization Index
